

YANMAR

Vi033-7

MINI-EXCAVATOR

Operating weight

3 265 kg (canopy)/3 390kg (cabin)

Engine gross power

18,9 kW at 2 200 rpm

Digging force (short arm/long arm)

18,64 kN/16,84 kN

Digging force (bucket)

30,69 kN

EXCAVATING EXCELLENCE IN TIGHT SPACES

COMPACT SOLUTION

The ViO33-7 mini-excavator features a true Zero Tail Swing design, allowing complete rotation within its crawler width for maximum safety. Its compact length enhances maneuverability and improves transportability, perfect for narrow environments.

OPERATOR COMFORT

Control levers are ideally positioned for exceptional precision, complemented by new travel pedals for intuitive maneuvering. The ViO33-7 features great visibility thanks to increased glass surface, a rear-view camera, and a 4.3-inch color display for enhanced operational ease.

LATEST TECHNOLOGY

For efficient and powerful working, the ViO33-7 has the VIPPS hydraulic system and is equipped with hydraulic quick hitch supply lines. Both standard auto deceleration and Eco modes ensure fuel saving & carbon footprint reduction over the operation time.

HIGH PERFORMANCE

The ViO33-7 delivers excellent efficiency with improved dumping height and clearing ability, increased swing angle and faster traveling.

ENHANCED SAFETY FEATURES

The ViO33-7 ensures operator safety with ROPS and FOPS Level 1 certification. It features durable boom, arm and blade cylinder protections, advanced LED lighting for low-light conditions, and superior visibility with large glass areas and a rear-view camera. The 4.3-inch color display provides real-time machine status, while safety is enhanced with an orange seatbelt, optional seatbelt sensor, green beacon, and a front polycarbonate shield.

EASE OF MAINTENANCE

Easily removable side panels and cabin floor allow straightforward access to hydraulic components. Wide opening access doors allow fast daily checks and servicing with further efficiency gains supported by Smart Assist Remote control in option.

A SMART AND COMPACT JOBSITE SOLUTION

COMPACT AND VERSATILE DESIGN

The ViO33-7 mini-excavator stands out with Yanmar's ViO design, ensuring that the standard counterweight doesn't extend beyond the track width. This results in an exceptionally small rear turning radius, making it ideal for confined spaces. The improved boom swing amplitude enhances both versatility and compactness, allowing for a better working range. This unique design philosophy maximizes maneuverability without compromising stability, ensuring superior performance in tight spaces.

ENHANCED SAFETY

The compact design of the ViO33-7 significantly improves safety on job sites. With the zero tail swing, the risk of accidents is greatly reduced. This ensures a safer environment for both the operator and surrounding workers. The ViO design is focused on creating machines that offer maximum safety through minimal protrusion and enhanced visibility.

EXCELLENT TRANSPORTABILITY

Transporting the ViO33-7 is effortless thanks to its compact overall length of only 4490 mm/4550 mm (short arm/long arm) and the inclusion of six tie-down points. With a transport weight 3 210 kg (cabin)/3 090 kg (canopy), these features ensure secure and convenient transportation, making the ViO33-7 easy to move between jobsites. The combination of its compact size and lightweight structure ensures that the ViO33-7 can be transported quickly and efficiently, reducing downtime and increasing productivity..

OPTIMIZED WORKING RANGE AND BOOM SWING

The ViO33-7 is designed for exceptional working range, versatility and improved visibility for the operator. It offers a boom swing of 71 degrees to the left and 52 degrees to the right, allowing for effective and productive work in various positions. The increased power for backfill work and improved swing usability on slopes further enhances its performance, making it highly capable for demanding tasks.

ULTIMATE OPERATOR COMFORT

The Vi033-7 mini-excavator is engineered to provide the highest level of ease and convenience, ensuring that operators can work efficiently and comfortably in any conditions

SPACIOUS AND ERGONOMIC CABIN

The Vi033-7 mini-excavator is designed with the operator at its core, to ensure unmatched ease and productivity. The roomy cabin provides exceptional visibility, increased legroom and an ergonomic layout, ensuring that operating controls and switches are within easy reach, enhancing both convenience and safety for the operator.

INNOVATIVE CONTROL FEATURES

The Vi033-7 features a brand new 4.3-inch color display, including auxiliary circuits flow settings for up to five attachments, providing easy and intuitive control. The handy joystick and button area, which includes a high-speed travel switch on the blade lever, are designed for ease of use and enhanced operational efficiency. More ergonomic travel pedals further improve the ease of maneuvering the machine.

ADVANCED CLIMATE CONTROL

To maintain a pleasant working environment in all weather conditions, the Vi033-7 can be equipped with an optional air conditioning system. Strategically placed vents ensure a consistent temperature throughout the cabin and provide efficient window demisting, ensuring clear visibility and a comfortable atmosphere.

PREMIUM SEATING FOR OPTIMAL SUPPORT

The Vi033-7 comes standard with an air suspension seat, fully adjustable and equipped with a headrest. This seat minimizes body tension and fatigue, offering superior support for a machine of this weight class, allowing operators to work longer hours with less strain.

ADVANCED TECHNOLOGY FOR IMPROVED PERFORMANCES

EFFICIENT ENGINE PERFORMANCE

The ViO33-7 is powered by Yanmar's 3TNV88-ESBV2 engine, delivering 18,5 kW at 2 200 rpm. This advanced engine combines fuel efficiency and low emissions, reflecting Yanmar's commitment to environmental sustainability. Key features include an ECU that optimizes RPM based on torque for fuel savings, an Auto-Deceleration system that reduces engine speed when hydraulic system idle for 4 seconds, and an Eco-Mode that lowers engine speed by 300 rpm to further enhance fuel efficiency.

VIPPS HYDRAULIC SYSTEM

The ViO33-7 is equipped with the ViPPS (ViO Progressive 3 Pumps System) hydraulic system, featuring three hydraulic pumps: two variable displacement pumps and one gear pump. This setup provides a total maximum flow of 102.5 l/min. The ViPPS system integrates these pumps via a control valve to ensure smooth, simultaneous operation of all functions, even while traveling, for optimal speed, power, and balance.

ENHANCED TRAVEL SPEED AND CYCLE TIME

With a travel speed of 4,8 km/h, the ViO33-7 reduces travel time and boosts efficiency for earth removal tasks while enabling faster movement on slopes. The digging cycle time has been improved by increasing the workgroup speed under load by 7%.

IMPROVED ATTACHMENT USABILITY

Simultaneous operation of the auxiliary circuit and the arm allows for efficient use of attachments, broadening the machine's functionality and performance. This feature makes the ViO33-7 compatible with a wide range of hydraulic tools, enhancing its versatility on the job site.

An auxiliary circuit priority section has been added to the main control valve, upstream of AUX1 line, supporting attachments that are characterized by a continuous load request.

An optional independent hydraulic line (deviation from AUX1 and routed on the digging arm) is available to operate a tilting function on a quick hitch, leaving AUX1 & AUX2 lines available for work tool hoses connection.

ENHANCED SAFETY FEATURES

ROBUST CABIN PROTECTION

The Vi033-7 cabin is engineered with safety in mind, meeting ROPS (Roll-Over Protective Structure) certification and FOPS (Falling Object Protective Structure) Level 1 standards. This ensures that the operator is well-protected in various operating conditions, enhancing safety on the job site.

COMPREHENSIVE BOOM AND ARM PROTECTION

The Vi033-7 offers exceptional protection for its boom, arm and blade cylinders. Each cylinder tube and rod is safeguarded by a durable spring-type steel plate, significantly reducing maintenance costs and extending the lifespan of the machine.

ADVANCED LED LIGHTING

For safe and precise operation in low-light conditions, the Vi033-7 comes standard with LED lighting. The strategically placed LED light on the inner part of the boom ensures efficient illumination and enhances visibility during nighttime or dimly lit tasks.

UPGRADED DIGITAL INTERFACE

The Vi033-7 features a 4.3-inch color display that provides clear, real-time information about the machine's status. The updated digital interface includes optional passcode engine security and offers user-friendly error indications in plain language.

SUPERIOR VISIBILITY

The Vi033-7 is designed with large glass areas to maximize visibility of the blade, boom, and arm. Additionally, the rear-view camera, which comes standard (cabin version), provides enhanced rear visibility, further ensuring safe operation in all directions.

SAFETY ENHANCEMENTS

The Vi033-7 is equipped with an orange seatbelt for increased safety and features optional enhancements like a seatbelt sensor and a green beacon for added visibility. A front polycarbonate protection shield is available as an option for the canopy, providing additional safety against debris and impact.

SIMPLE MAINTENANCE ACCESS

The 4.3-inch color display integrates key information about maintenance, such as fuel consumption, fuel gauge, and coolant temperature, while also aiding maintenance scheduling and diagnostics with clear error messages and icons. The machine designed for effortless maintenance. The engine bonnet and right-hand side cover open easily, providing wide access to essential components like the air filter, compressor, radiator, battery, and fuel tank. Removable side panels and cabin floor offer convenient access to hydraulic parts. A flat floor mat simplifies cleaning.

EQUIPMENT

[STANDARD EQUIPMENT]

PERFORMANCE

Engine 3TNV88-ESBV2 Yanmar diesel | Direct injection | Engine Control Unit (ECU) | Eco-Mode | Auto-Deceleration System | VIPPS Hydraulic system (ViO Progressive 3 Pump System) | AUX1 hydraulic line with proportional control and extension to arm end | Auto kickdown travel motors | 1 LED work light integrated under the boom | Long arm (1470 mm).

COMFORT AND EASE OF USE

4.3 inch. color LCD interface | Up to 5 work tool hydraulic flow presettings | Adjustable and reclining seat with fabric or vinyl cover, pneumatic suspension and headrest | Adjustable wrist support | Foot rests | Wide travel pedals | Windshield with 2 fully retractable parts | Sliding double right-side window | Transparent front roof window | Wiper | Windshield washer | Automatic ceiling lamp | Storage space in right console | Plastic & sealable document storage box | Coat hanger.

SAFETY AND DURABILITY

ROPS & FOPS for cabin and canopy | Handrails | Safety lever | Orange seatbelt with retractor | Rear view camera on cabin version | 3 safety valves (arm, boom & blade) + overload warning | Evacuation hammer | 4 tie down points on track frames | 3 mirrors | Horn | Blade cylinder supply hose into two parts | Quick connector on battery terminal | Hoses protected by abrasion resistant sleeves | Lockable covers.

MISCELLANEOUS

External hydraulic oil & fuel gauges | Toolkit | Grease gun | External hydraulic oil gauge.

[OPTIONAL EQUIPMENT]

EQUIPMENT AND PERFORMANCE

Engine programmable auto shutdown | Fuel/water separator sensor with warning in operator space | Steel crawlers | Rubber pads for steel crawlers | Independant tilt function hydraulic supply line (deviation from AUX1) | Drain line | Short arm (1220 mm) | AUX1 & AUX2 hydraulic lines with proportional control and extension to arm end | Clamshell bucket circuit | Hydraulic quick hitch supply line (150 bar) | Quick connectors | Additional counterweight (+160 kg) - 85 mm rear overhang | Bio oil | 2 front LED working lights (cabin and canopy) | 1 rear LED work light + 1 plugable LED flashing beacon (cabin and canopy) | 1 plugable LED flashing beacon (cabin and canopy) | Beacon light with magnetic base.

COMFORT AND EASE OF USE

Air conditioning | Yanmar seat cover | Radio | Central greasing | Grease gun support bracket (cabin & canopy).

SECURITY AND DURABILITY

Seatbelt sensor with operator warning with or without green beacon | FOPS I front protection (cabin and canopy) | Removable battery cut-off switch | Yanmar anti-theft solutions : engine start pin code in LCD panel or coded engine start key | Various other anti-theft solutions | SA-R3 telematics solution | Travel alarm (beep or white noise).

[ATTACHMENTS]

Yanmar gives you the attachment that fit your needs and match the safety standards in force in your country: mechanical quick coupler, hydraulic quick coupler, ditching bucket, swinging bucket, backhoe bucket, hydraulic breaker...
